

CAPABILITIES

MEDICAL PRODUCTS**Web Industries Medical Facilities**

Web Industries medical facilities are located in three locations:

- Boston, Massachusetts
- Hartford, Connecticut
- Fort Wayne, Indiana

Materials Expertise

- Adhesives
- Nonwovens
- Films & Plastics
- Composites & Fibers
- Foils & Metals
- Custom Laminates
- Paper & Membranes
- Specialty Materials
- Inks, Coatings, Resins

Market Experience

- Clinical Lab Diagnostics
- Test Strips
- Wearables
- Wound Care
- Microfluidics
- Disposable Medical Consumables

Core Competencies**Outsource Component Converting**

- Precision Slitting, Spooling, Winding
- Printing, Island Placement, Registration, Die-Cutting
- Multi-Layer Laminations & Sub-Product Assembly

Outsource Device Manufacturing

- Precision Modular Lines
- Prototype to Commercial-Scale Production
- Clean Room & Dry Room Manufacturing Environments
- Contract Manufacturing with Automated Device Assembly

Other Value-Added Services

- Comprehensive Supply Chain Management
- Quality Assurance, Vision, and Inspection Systems
- Custom Systems Integration & Reporting
- Customer Specific Manufacturing Process Development

Our facilities offer:

- Over 35 precision converting and manufacturing lines
- Modular multi-layer device assembly
- Medical-grade materials expertise
- “Silent Partner” - prototype to commercial scale production capacity
- Controlled manufacturing environments.
- Key market proximity and geographic manufacturing redundancy
- ISO 13485 and 14001
- cGMP compliant and FDA-registered

Contact Web Industries at **+1 508.573.7979** or sales@webindustries.com and learn how our innovative solutions to product development, contract manufacturing, and product life cycle management can ensure success for your medical device.
